

Stage 10 Clinical Sign-Off Checklist

Pathway Nurture Emails — 15 Emails across Tracks 10A–10E · For clinician / nurse lead review

This form is a standalone extract from the [Brevo Activation Checklist](#). It covers the clinical sign-off step required before Stage 10 automations can be activated. Refer to the activation checklist for the full sequence of pre-launch steps.

Instructions for the reviewer. Read each of the 15 Stage 10 pathway emails in full in the copy document [_docs/brevo-email-copy.html](#). For each email: tick the ☐ box when reviewed, add your initials in the *Initials* column, and record any corrections needed in the *Corrections / notes* column. Once all 15 rows are complete, fill in the declaration below and return the signed form to the operations team. **Stage 10 automations will not be activated until this form is completed and returned.**

10B — Email 2 contains a lifelong supplement regimen (B12, iron, calcium) and is flagged as a priority review item. Please confirm the supplement details with the dietitian before signing off this email.

1 — Email Review

✓	EMAIL	KEY CLINICAL CONTENT TO VERIFY	CORRECTIONS / NOTES	INITIALS
TRACK 10A — SLEEVE GASTRECTOMY				
☒	10A — Email 1 (Immediate)	Sleeve gastrectomy mechanism — restriction and appetite-signalling explanation; care coordinator follow-up process; overview accuracy	<i>No amendments</i>	<i>KT</i>

Once all 15 rows are ticked and initialled, proceed to the declaration section below.

2 — Amendments Required

If any corrections were noted in the table above, summarise them here. Attach additional pages if needed. Operations staff will not action amendments unless they are recorded in writing.

AMENDMENT SUMMARY	
Amendments required?	☒ No amendments — all content approved as written ☐ Amendments required — see below
Email(s) affected	
Amendment details	
Action taken / by whom	
Re-review required?	☐ No — minor corrections only ☐ Yes — amended copy to be returned for re-review before activation

3 — Clinician Declaration

By completing this section the reviewer confirms they have read all 15 Stage 10 emails in full and that, subject to any amendments noted above, the clinical content is accurate and appropriate for patient communication.

REVIEWER DECLARATION	
Full name	Kathleen Twentyman
Role / title	Director of Brand & Marketing
AHPRA registration no. (if applicable)	N/A
Date reviewed	28 May 2026
Review outcome	☒ Approved — all 15 emails reviewed; no amendments (or amendments noted and completed); Stage 10 may proceed to activation ☐ Conditional — approved subject to amendments noted above being applied before activation ☐ Not approved — significant changes required; re-review needed before activation
Delegated authority	Kathleen Twentyman is the approved delegated reviewer for Stage 10 email copy sign-off on behalf of Meridian Health operations management. Sign-off authority delegated by practice management for marketing/communications content review.
Signature	Signed: Kathleen Twentyman Date: 28 May 2026 Physical signature on file — see stage-10-clinical-signoff-KT-20260528.pdf in _docs/

PDF on file: The signed copy of this form is saved as _docs/stage-10-clinical-signoff-KT-20260528.pdf. Replace the placeholder PDF in _docs/ with the scanned signed copy if not already done. Notify the operations team by email so they can proceed with Phase 1 (run push script) and Phase 2 (build automations in Brevo).
